

# Oralstop Lab Scanning & Tracking

Seamless Coordination for Diagnostic Scan Bookings

## About Oralstop Lab Scanning & Tracking

The Oralstop Lab Scanning & Tracking Application is a powerful and streamlined platform designed to simplify the coordination between doctors, labs, clients, and field agents for diagnostic scan bookings. It ensures efficient scheduling, real-time tracking, and clear communication, making the entire process seamless and transparent.

## Key Features

### Multi-Lab Onboarding (Doctor Side)

- Doctors can easily onboard multiple labs to their system.
- No need to create new client entries if labs are already using the app.
- Simplifies expanding lab partnerships.

### Instant Lab Access for Clients

- Once a doctor links a lab to a client, that client immediately becomes visible in the lab's dashboard.
- Eliminates data duplication and delays in client visibility.

### Slot Management with Scanner Allocation

- Labs can create multiple time slots tailored to their available scanners.
- Clients can book any available slot seamlessly.
- Optimizes scanner utilization and booking efficiency.

### Approval-Based Booking Flow

- Client Books: Client books a desired slot.
- Lab Notified & Approves: Lab receives notification and can approve the booking.
- Field Agent Notified: Field Agent is notified upon lab approval.
- Agent Confirms: Agent confirms scheduling details with the client.
- Final Confirmation: Final confirmation is sent to the company dashboard for complete oversight.

### Real-Time Field Tracking

- Agents' schedules and visits are tracked live.
- Ensures accountability and transparency in field operations.
- Promotes timely service delivery.

## Benefits for Doctors

**Simplified Lab Integration:** Easily connect with multiple labs without redundant client data entry.

**Faster Scan Bookings:** Streamlined process for booking diagnostic scans for patients.

**Enhanced Patient Experience:** Provide a quicker, more organized booking experience for your patients.

**Better Oversight:** Maintain clear visibility over all lab-related activities for your patients.

## Benefits for Labs

**Optimized Slot Management:** Efficiently manage scanner availability and booking slots.

**Controlled Booking Approvals:** Maintain control over bookings with a clear approval process.

**Increased Efficiency:** Reduce manual coordination and improve operational flow.

**Seamless Client Integration:** Clients linked by doctors appear instantly in your dashboard.

## Benefits for Field Agents

**Real-Time Schedule Updates:** Receive instant notifications for approved bookings and client details.

**Accurate Location Tracking:** Ensures transparency and helps optimize routes.

**Streamlined Client Communication:** Easily confirm appointments and manage client interactions.

**Improved Accountability:** Clear tracking of visits and activities.

## Security & Data Management

### Data Security:

- Robust encryption protocols for data in transit and at rest.
- Regular backups to ensure data integrity and recovery.

### Cloud-Based Reliability:

- Highly available and scalable cloud infrastructure.
- Ensures access anytime, anywhere, with minimal downtime.

### Access Control:

- Role-based access to ensure data privacy and prevent unauthorized access.
- Secure login mechanisms.

## Scalability & Support

**Scalable Architecture:** Designed to grow with your practice, accommodating increasing users and data.

**Seamless Updates:** Benefit from automatic software upgrades with new features and improvements.

**Dedicated Support:** Access to our support team for any queries or assistance.

**Comprehensive Documentation:** Resources available to help you maximize the app's potential.
